Education

Florida Polytechnic University, Lakeland, FL | Graduated May 2019
Computer Science and Information Technologies, B.S.

Experience

Database Administrator | *Aug 2019 to Current*
Strategic Database Research Inc., Deerfield Beach, FL
Designed and built mySQL queries and databases on a need-case basis based on client requirements, automate recurring tasks, improve script technologies, and create structured reports for the office manager, owner, and clientele.

Sales Associate | *May 2018 to August 2018*
CREAM Nation, Boca Raton, FL
Primarily assisted customers, including answering questions and preparing orders, restocked inventory. Also assisted the manager with various tasks such as inventory ordering, computer system administration, and training new hires.

IT Intern | *May 2017 to August 2017*
Insurance Care Direct, Deerfield Beach, FL
Helped manage company websites, organized call recordings in database, backup data, and provided office tech support in a corporate environment.

Accomplishments

- **Project Hindsight,** a complete overhaul of system scripts, databases, and user interface designed from the ground up to improve efficiency, reduce redundancy, and increase productivity at SDR.
- **Head committee leader of FL Polycon**, a fully student-organized annual "geek culture" convention hosted at Florida Polytechnic University with over 2000 attendees.
- **STEAM club co-founder and treasurer** at Florida Polytechnic University, hosting Hackathons each semester to encourage the creative use of STEM in various art forms.
